THE ELECTION.

Tuesday's election resulted disastrously to the Democrats of Stark county. The clean, fair, honest fight. Not a single man on the ticket exceeded the limit of the Garfield law in his expense account. It was a fight f r purity in elections and is formed on county affairs and they had an opportunity to approve or rebuke. officers by about 1,200 or more majority. In this country majorites rule, and the News-Democrat bumlly submits to the will of the majority.

It may not be long, however, until the taxpayers of Stark county will see the folly of their ways.

The Widower Made Plans For His Fourth Honeymoon.

Included in the wide membership of the Pacific Union club is a middle aged man whom everybody knows simply as the Widower. He has been so fortunate as to ontlive three consorts without getting tired of any of them. His many bereavements have given him a sort of professional standing in the world of sorrow, and he is rather proud of his reputation for constant mourning.

The Widower, whose grief is interesting to ladies, is never estentatious in his sighings. On the contrary, be cultivates an air of patient resignation, beautiful to behold. A peculiarity about his case is his habit of associating the memory of each dear, departed spouse with some spot or resort about the city or the suburban towns.

He was recently showing San Franciseo and its environs to a friend from New York. Over in Berkeley, he remarked, sighingly:

An amusing example of the Irishman's prounnelation occurs in a story told of the late Dr. Todd, the Irish archæologist, who, although a great scholar, was not above perpetrating a practical joke. The London Spectator A very learned Englishman went to

Dublin to examine some manuscripts constantly and continually. He must in the library of Trinity college and was of course introduced to Dr. Todd, who one day in conversation told him that there was in Trinity college a curious instance of the survival of a habit dating from the time of the Danes; that at a certain hour of the afternoon-I think 6 o'clock-a porter went the ach rebel on the second or third day? round of the college ringing a bell and calling out in a loud voice, "The Dane's well, because no man when bilious de- in the hall," when all the students rushed from their rooms to repel the invaders. So the learned but somewhat incredulous Englishman repaired to the college at 6 o'clock, and, sure enough, what Dr. Todd had told him came to pass, which he gravely related on his return to England. The summons of course referred to the dean.

His Feelings Were Hart. "I used to think these mother-in-law jokes were fiction," said a young man with a fancy vest and a receding chin, 'but I guess they're justifiable.

"Has yours been cruel to you?" "Yes. I told two or three of these stories about a man's being glad to be this humble agent, taken according to rid of his wife's mother, and she said that if I kept on talking in that manner she'd stop paying the house rent and the coal bill and the taxes, and that she'd take her furniture to fix up a ing a man in that way, in cold blood!" -Washington Star.

And he handed him a penciled slip with the name of Herr Fritz Piepenbrink or some such name, oil and colonial warehouseman, No. 000 Friedrichs strasse, Berlin.
